Griffith Foods Partnering with Ontario to Support Community

TORONTO – Griffith Foods Limited, Griffith Foods’ business unit based in Toronto, is proud to announce a partnership with Ontario’s Ministry of Agriculture, Food and Rural Affairs (OMAFRA) to modernize and scale-up production of the manufacturing location.

Doug Pritchard, general manager of Griffith Foods Limited, said this collaboration will help the company carry on its legacy of befitting the local community.

“Griffith Foods is committed to driving positive impact, and we are proud of our partnership with the Ministry of Agriculture,” Pritchard stated. “This investment supports Griffith Foods’ continued growth and enables us to create more jobs in the community. Just as we have done for 100 years, we continue to look for ways to Blend Care & Creativity to Nourish the World.”

Griffith Foods Limited has continually operated in Canada since 1929, and is Griffith Foods Worldwide Inc.’s second longest-running business unit.

Support for this project is from Ontario’s Jobs and Prosperity Fund – Food and Beverage Growth Fund, which aims to create and retain jobs, increase domestic and export market access, and enhance innovation and productivity.

Griffith Foods’ scale-up and modernization project is expected to create eight new jobs, and retain 337 existing jobs with the company.

“Boosting innovation and strengthening Ontario’s key industrial sectors is exactly why we created the Jobs and Prosperity Fund,” Steven Del Duca, minister of economic development and growth said.

“Our government is delighted to partner with Griffith Foods Limited in this project to increase competitiveness and secure new investment in their Toronto operations.”

About Griffith Foods

Griffith Foods is a family-owned global developer and manufacturer of customized food ingredients. The company’s capabilities range from seasonings and breading, to marinades and sauces blended to exacting specification that are culturally authentic, taste great and improve food safety. Founded in 1919 and headquartered in Alsip, Illinois, USA, Griffith has grown and expanded globally to include a presence in over 30 countries.
