

Produce for *Hunger*

Produce for Hunger was created by Griffith Foods as our annual event dedicated to supporting the global fight against hunger. Each year on or around World Food Day (October 16), Griffith Foods partners with food banks and feeding organizations to produce and distribute food in the communities where we work and live.

By working together with our family of companies, including Custom Culinary®, our wholly-owned subsidiary, and Innova®Flavors, our flavors division, we partner with dozens of suppliers to make Produce for Hunger a reality.

Since 2014, we have produced and donated more than 16 million servings of food to dozens of food banks in 13 countries.

A Sample of Products Donated
